

We listen to K-LOVE everyday on our home and car radios and have been financial sponsors for a couple of years. K-LOVE brings positive and encouraging music and advice into our home which we've been able to apply to our family, work, and community settings.

Without K-LOVE in our community, our residents would be without a contemporary Christian radio station. There aren't any other choices beyond secular stations that are filled with loud and annoying advertisements and interspersed with music with less-than-wholesome, value-added lyrics.

K-LOVE provides the public with timely news that omits the sordid details of much of the violence that occurs in our world today. In addition, K-LOVE gives listeners an opportunity to call in with prayer requests and provides a very important link to helpful advice and biblical encouragement. As the station's theme indicates, K-LOVE is positive, encouraging. I really cannot imagine my life being the same without K-LOVE.

Thank you for this opportunity to respond.
